Introductory

It is with great pleasure we offer to Parkersburg our New Industrial Souvenir and City Directory of this beautiful city. We have sincerely tried to present the manifold constructive interests of the city in a pleasant and interesting way, and to give you a book that would serve as a guide to the social, professional, commercial and industrial life of the city, and have illustrated same so profusely that the pictures alone tell nearly the whole story. While we have spared no expense to verify facts and prevent blunders, and have bent every effort to give you a correct City Directory and Symposium of the Industrial, Social and Religious life of the city, we know that owing to the training of new help in the work, some mistakes will creep in or some names or facts be overlooked. These errors will be corrected in future editions, when assistants more fully understand their work.

Our gratitude goes out to those who have so earnestly helped us in making this work of interest and of such educational value, that it should be in every home for the instruction of the youth, and some not so young, regarding the merits and advantages of their home city. Our purpose has been to make a work not only useful but necessary in the home, as well as a beautiful Souvenir to send to friends elsewhere, and so secure their interest in Parkersburg and her future.

Especially do we wish to thank the force of Parkersburg young ladies who personally canvassed the city and obtained the names.

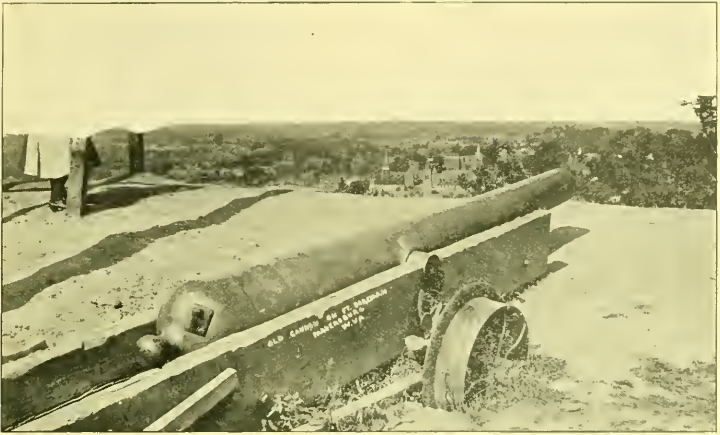

occupations and addresses for the Directory; and to those enterprising citizens who have given us of their time and encouragement in preparing this work, notably Col. Charles B. Kefauver, the President of the Dispatch-News, that hustling and wide-awake newspaper man who is earnestly laboring for a greater and better Parkersburg; to A. C. Davis, general manager of the West Virginia Western Telephone Company, who is a double-distilled and forceful compound of brains, energy, courage and grit, whose constructive work in Parkersburg's interest has made telephone rates so reasonable that a telephone exists in almost every home; to Mr. T. R. Cowell, the Vice President of the Cairo & Kanawha Railway, who is represented in many of the city's leading industries as a stockholder or director; to Mr. C. R. Kerr, the photographer, for the portrait work herein; to Mr. H. C. Fischer, of Marietta, for the many beautiful views of Parkersburg taken in the summer time, as well as the winter scenes; and to many others too numerous to mention for helpful work in preparing this beautiful Souvenir, showing the social, professional, commercial industrial and religious life of our city, illustrated so profusely that every one must see the beauty and desirability of our city as a place of residence, of business, as a manufacturing center, or a shipping point, trade center and outlet for the natural wealth of West Virginia to the markets of the North, Northeast and West.

PARKERSBURG, 1907.

PARKERSBURG, a hustling and up-to-date city of 25,000 population, lies at the confluence of the Ohio and Little Kanawha Rivers, and at the terminus of the canal now being constructed to connect the Great Lakes at Cleveland with the Ohio River, and being situated at the crossing of these waterways, iron ore and cokeing coal can be assembled here at less cost than at any other place in the United States, making it the best location in the Ohio Valley for manufacturing enterprises, and it is now one of the valley's principal manufacturing cities.

It was settled more than one hundred years ago, but its modern development began not more than fifteen years ago. It now has fifteen miles of brick-paved streets, twenty miles of electric street railways, good sewerage, good water and light systems, splendid schools, handsome churches, public library, costly club houses, two large theatres, three daily newspapers, and many advantages of a city even larger than this.

The people are cordial, hospitable, and extend a warm welcome to stran-

gers. The population is practically all American, and is about equally divided between the Old Virginia element, the first settlers, the Ohio element, and the Pennsylvania element, and happily blends the comfortable home life of a Southern city with the hustling business enterprise of a Northern one, making an ideal city both for residence and business.

Parkersburg has ten banks, all in a flourishing condition. Their deposits are, in round numbers, Five Million Dollars, and their aggregate resources are more than Eight Million Dollars. The average deposit in Parkersburg banks per capita is \$232, while in the United States the average is about \$85, a fair illustration of the comfort of its citizens. In addition to the banks there are three Building and Loan Associations with aggregate resources of more than Two Million Dollars.

Parkersburg, owing to its splendid railroad and river facilities, is a natural distributing point in a commercial way, and its wholesale houses keep about 125 salesmen on the road. They

View Up Market Street, Parkersburg, W. Va.

do an annual business of about Five Million Dollars, making this city a wholesale center for almost all lines of merchandise.

There are nearly two hundred industrial establishments here, employing three thousand persons, paying out a million and a half dollars a year in wages, and turning out six million dollars worth of finished product annually. The lines of manufacture include steel products, foundries, forges, machine shops, wood working plants of all kinds, including furniture factories, chair factories, mantels, house furnishings and cabinet works, oil refineries and chemical plants, potteries, tile and brick works, artificial stone works, engine works, brewery, railroad repair shops, boiler works, and a great variety of other factories.

As a manufacturing site, Parkersburg has many advantages. It possesses the three essentials for suitable manufacturing sites, cheap raw materials, cheap cost of manufacturing, including labor and power, and accessibility to market, with cheap transportation. Parkersburg has cheap raw materials of al-

most every variety. Especially is this true of all kinds of timber and hard woods, iron and steel, which enter largely into most lines of manufacture. It is close to the immense forests of West Virginia, where every variety of timber, known to the temperate climate is found. Much of it is floated from forest to factory on the rivers, making the cost here about the same as in the forests. Iron and steel can now be had by water transportation from the furnaces at little more than the cost at the furnace. When the canal to Cleveland is completed, within two years, iron ores from the Great Lakes can be delivered here at 40 cents a ton less than at Pittsburg, and with coking coal of the finest quality at the very door of Parkersburg, this city will become a great iron making center. Fire and potters clays, glass sand, fruits and vegetables for canneries, wool, cotton and a great variety of other raw materials for manufacturing are to be had here at such low rates that all raw material may be said in a general way to be cheap and plentiful.

The best steam coal can be had de-

View Down Market Street, Parkersburg, W. Va.

livered in factory here at \$1.25 per long ton, but it is not used because natural gas at eight cents per thousand feet is so much cheaper and more satisfactory in every way. At this price gas is considered the equivalent of coal at 95 cents per ton.

Labor is plentiful and reliable and is native American. The heads of several large manufacturing concerns here, who have had years of experience in other places, say that labor is the best to be had. The cost of living is low, and labor troubles are practically unknown. Plenty of good female help can be had for work which is suitable for women.

Parkersburg is centrally located and accessible to the general markets. It is about the same distance from New York, Chicago and St. Louis. It has ample railroad facilities in every direction, with five roads running into the city, and is also on the Ohio River, which United States Engineers say affords the cheapest transportation in the world. Freight rates are satisfactory to all points and railroad rates are regulated by the competition afforded by river transportation, thus

insuring a permanent equitable adjustment.

One of the most important features of this city is the low rate of taxation, being less than one half of one percent on each hundred dollars of valuation in the city and about two-thirds of one percent for county purposes. After the year of 1908 no taxes whatever will be paid for State purposes. Therefore Parkersburg and West Virginia can offer greater inducements to manufacturing enterprises seeking location than any State in the Union.

More than \$2,750,000, is being expended at the present time in improving industrial conditions and making a permanent and solid foundation for a great industrial city. The greater portion of this amount is being used to improve the railroad and water transportation facilities and to supply additional and cheaper fuel. More than \$500,000 is being expended in the erection of additional industrial plants or the enlargement of present ones. The permanent improvement of industrial conditions helpful to the varied manufacturing interests at

View on Ann Street, Parkersburg, W. Va.

present with us and to attract new ones, is the Parkersburg idea, and it is along these lines that the organized commercial forces of the city are working, so as to improve its already favorable conditions in order that success and prosperity will attend every factory which is established in the city.

The United States Government is constructing a lock and dam in the Ohio River five miles above the city of Parkersburg, at a cost of \$850,000, which will provide continuous navigation between the Little Kanawha River and the Muskingum River in Ohio. Five miles below Parkersburg another lock and dam in the Ohio River will provide a permanent pool of deep water in the Parkersburg Harbor. More than \$125,000 has already been appropriated for this work, which will cost in the neighborhood of \$850,000 when completed. A lock and dam to cost \$110,000, has been provided for in the Muskingum River by the United States and will be completed next season. From the Muskingum river to Lake Erie at Cleveland the State of Ohio is re-constructing, widening and

deeping the old canal. It will be completed and boats will be passing through it within twelve months. So that, within the next year direct water communication between Parkersburg and Cleveland will have been established, with a minimum depth of five feet, and after years of persistent effort Parkersburg is about to realize her dream of a waterway connecting the ore fields of the Great Lakes with the coal fields of West Virginia, and water transportation of the product to the wide markets of the world.

Fully \$300,000 is being expended in Parkersburg for the improvement of its freight terminals by the Baltimore & Ohio Railroad Co., the construction of new roundhouses, repair shops and yard improvements, and upon the completion of these improvements a large and comfortable passenger station will be constructed here.

Parkersburg has suffered from a lack of suitable sites for factories. To remedy this condition, the Parkersburg Industrial Company, headed by United States Senator J. N. Camden, C. H. Shattuck, Judge Reese Blizzard and others, have secured about 1500

View on Juliana Street, Parkersburg, W. Va.

acres of land on the south bank of the Little Kanawha River, near the Eastern part of the city. A bridge is now being constructed across the river and as soon as completed, the Parkersburg, Marietta and Inter-Urban Railway Company will extend its electric lines across the bridge and through the property, providing adequate street car facilities. The Little Kanawha Railroad already runs through the property and the Little Kanawha River with water transportation passes in front of it. And a macadamized boulevard eighty feet wide and two miles long is being constructed, thus providing ideal sites and transportation facilities for manufacturing enterprises.

With cheap natural gas which has not failed for a single day since its introduction thirteen years ago, with the splendid coal fields of West Virginia at her door, with manufacturing sites ideal in character, with cheap transportation by both water and rail to the markets of the world, with \$850,000 being expended on Lock and Dam No. 18; with \$125,000 being ex-

pended on Lock and Dam No. 19 below Parkersburg; with \$83,000 being expended improving Locks and Dams on the Little Kanawha River; with \$300,000 being expended on the Baltimore and Ohio shop improvements; with \$300,000 being expended on bridge and street railway and boulevard to South Side; with \$500,000 being expended on enlargements at Standard Oil Refinery and \$50,000 having just been expended on betterments and improvements of the Parkersburg Iron & Steel Company's Plant; and with thousands more to be expended upon additions to their plant to care for their increasing business throughout the country; with \$50,000 being expended on the Agricultural Fair Grounds and buildings, making a grand total of approximately \$2,758,000, being expended on industrial improvements, a wonderful development is with us, bright prospects are before us, and **Parkersburg will take front rank as one of the leading commercial and manufacturing centers of the Great Ohio Valley, the Richest Industrial Valley in the World.**

The First National Bank

Corner of Market and Seventh Streets
(W. Va. 316.)

Has watched over the growth and development of Parkersburg from the time when she was a struggling village of three thousand inhabitants, with an uncertain future, until now, when she stands the second city in the State in population and importance. Not a little of this development is due to the direction and care of the officers and directorate of this old and conservative bank. Always to the front when the needs of the city are in question, many a deserving enterprise has been nursed and brought from a weak and questionable future to a prosperous fruition by her helpful fellowship, and hardly a street exists in the city but what bears her imprint, among them such beautiful edifices as the new First National Bank building, in which is located the Hotel Chancellor and the First National Bank.

The First National Bank was organized in 1863 on a capital stock of \$50,000. Twice it has been compelled to increase this capital, the first time to \$150,000, and again to \$250,000.

The President of the Bank, Senator J. N. Camden, and the Vice President, Mr. W. N. Chancellor, have been connected with the institution since its organization, Mr. Camden as its first President and Mr. Chancellor as its first Cashier. Mr. H. H. Moss, the present Cashier, has been identified with the bank for fifteen years, being formerly cashier of the Parkersburg National Bank for about twenty-three years. Mr. W. Armstrong has

also been in the service of the bank since shortly after it was organized.

When the First National Bank commenced business they were located on the east side of Juliana street, a little north of Third. Later on a building was erected on the southwest corner of Juliana and Third streets, which was occupied for about 25 years, from whence they removed to the corner of Market and Fourth, and when it was found that these quarters were inadequate for their great and increasing volume of business, the present magnificent structure was erected at the corner of Market and Seventh streets, in which they are now located, the banking fixtures of which, designed in beautiful mahogany, are considered among the most elaborate to be found anywhere in the country.

The present officers of the bank are: J. N. Camden, President; W. N. Chancellor, Vice President; H. H. Moss, Cashier, and W. Armstrong, Assistant Cashier, and the Directors are J. N. Camden, W. N. Chancellor, T. B. Camden, W. T. Wiant, C. C. Martin, W. W. Van Winkle, F. S. Smith, E. L. Davidson and George M. Whitescarver.

The Capital Stock is now \$250,000, together with a surplus fund of \$170,000, and the bank is also a United States Depository.

A prosperous future, the result of the careful and conserving management of every interest entrusted to their care, is but the just reward to this tried and tested faithful friend of Parkersburg.

The Parkersburg National Bank,

"THE OLD BANK"

Corner of Fourth and Market Streets.

(W. Va. 367.)

The Parkersburg National Bank was originally called the Western Bank of Virginia, and was doing business about 1815. It was afterward changed into the Northwestern Bank of Virginia, about 1830, and was incorporated as the Parkersburg National Bank in 1865.

From 1830 until 1904 the old bank building on Third street was occupied. In 1904 they removed to their present beautiful and commodious quarters in the Blennerhassett Hotel Building, corner of Fourth and Market streets.

The capital stock is \$150,000, and the surplus fund is \$105,000, and this solid old institution has over \$400,000 deposits. Its history has been one of uniform success throughout the many years of its existence, an existence that almost spans a century. In fact, the Parkersburg National Bank is the oldest banking institution in the city, and is commonly spoken of as the "Old Bank."

Mr. C. Nelly (of the wholesale grocery firm of C. Nelly & Co.) is the President of the Bank, and has been identified with the bank as a Director, and later as President, for many years. Charles A. Bukey, the

Cashier, has been connected with the Bank, occupying various positions, since 1881. The Directors are: C. Nelly, H. B. Hogg, Jas. S. Wade, W. D. Paden, W. Vrooman, M. W. Mullen, B. F. Tracewell.

This bank does a general banking business, issues drafts on all foreign countries, payable at sight; makes collections, etc., and in short, transacts all the various kinds of business usually conducted through such an institution. As a financial agent, its many patrons have always found this bank eminently worthy of confidence, and a safe guardian of their interests.

The liberal patronage accorded the Parkersburg National Bank by the business firms of the city, and the public generally, shows how firmly established is its reputation in this community for stability and sound financiering. The safe deposit vaults of this bank are among the strongest in the city, and are provided with the most effectual precautionary devices against loss by burglary or fire, being proof against the attacks of either.

If you are seeking a new banking home for your account, the old Parkersburg National Bank will serve you faithfully and well.

The Central Banking & Security Co.

615 Market Street, Parkersburg, W. Va.
(W. Va. 256)

The Central Banking and Security Company, located at 615 Market street, has been successful from its inception. Organized under charter dated June 24, 1900, it opened for business April 22, 1901, with an authorized capital stock of \$300,000, of which \$150,000 was paid in. Already its resources amount to \$600,000, with a surplus fund of \$22,000. Since their organization they have declared and paid nine semi-annual dividends. The bank owns its own building; the banking rooms are furnished in mahogany, and is otherwise as well equipped as any in the State for banking purposes.

The Central Banking & Security Company has a large and growing Savings Department, and pays interest on savings deposits at the rate of 4 per cent. per annum, payable January and July of each year. Nearly 4,500 depositors have availed themselves of the opportunity to deposit their savings here. The management have tried to make it the people's bank, and certainly the large number of depositors show how well they are

succeeding. In the Commercial Department, the company welcomes the accounts of all, and on inactive, or time deposits, pays the usual rate of interest. They also have a Trust Department, which is fully equipped to handle fiduciary business of every kind, and seeks appointment as Executor, Administrator, Guardian, Assignee, Receiver, Trustee, etc., as well as the collection of Rents and Management of Estates. To business entrusted to them in this department the best of attention is and will be given. Their policy has always been conservative fair dealing with all, whether a depositor or borrower, of small or large amounts. The stock of the company is owned by citizens of Parkersburg and vicinity, who are among the best in the community. The officers are: W. H. Smith, President; Levin Smith, Vice President; W. H. Ogden, Cashier; J. V. Langfitt, Assistant Cashier; and the Directors are W. H. Smith, Jr., Olin V. Neal, E. J. Humphrey, S. B. Langfitt, S. B. Crawford, F. D. McCoy, Levin Smith, J. V. Langfitt, Wm. Kirk, J. T. McMechen, B. D. Stout.

Farmers & Mechanics National Bank

Corner Market and Fourth Streets

Capital, \$100,000.00

Surplus and Undivided Profits, \$25,000.00

(W. Va. 594.)

The Farmers and Mechanics National Bank was organized in 1900, and since its organization has had a rapid growth. While it is one of the youngest financial institutions in the city, it is one of the most substantial and leading financial institutions of the State, having assets exceeding \$700,000.00.

The Directors are some of the best business men of the city. The following is a list of the officers and directors of the Bank:

President—W. W. Walker, proprietor Blennerhassett Hotel.

Vice President—John M. Crawford, Secretary and Treasurer Parkersburg Rig and Reel Company.

D. A. Beatty, oil producer.

D. F. Connolly, oil producer and manager Associated Producers Company.

J. W. Solley, superintendent South Penn Oil Company.

R. J. A. Boreman, capitalist.

W. S. Tracewell, real estate.

F. O. Havener, president Holly Lumber Company.

H. O. Smith, Jeweler.

C. T. Hiteshew, Cashier, has been cashier

of the institution for the last three years, and is also President of the West Virginia Bankers Association.

This Bank does a general banking business in all its branches, including the handling of commercial accounts, the carrying of commercial deposits for business men, a savings department which pays the highest rate of interest on savings deposits, rents safety deposit boxes for the storage of valuable papers, wills, deeds, notes, mortgages, jewelry, and other valuables; issues drafts on all foreign countries payable at sight; makes collections, and acts as financial agent for its patrons with the utmost diligence and care, and in all ways and for all purposes for which a bank is desirable will be found a conservatively managed but enterprising, financial institution that enjoys the respect and support of many of the largest commercial interests of Parkersburg, and has the hearty good will of the entire commercial life of the city.

A careful scrutiny of the personnel of the officers and directors of this Bank will please us when you are seeking to open a new banking account.

The Second National Bank of Parkersburg

Corner Fifth and Market Streets

Capital, \$156,000

Surplus and Undivided Profits, \$73,000

(W. Va. 375.)

The Second National Bank of Parkersburg, corner of Fifth and Market streets, was organized in 1865, with a capital of \$105,500, with General J. J. Jackson as its first President, who continued in this office until his death in 1877, and with W. H. Wolfe as its first Cashier. In the thirty-two years of its existence it has built up a large and profitable business, early being compelled to increase its capital, which is now \$156,000.

General Jackson was succeeded by James W. Dils, who continued President of the Bank during the remainder of his life, nineteen years. Its other Presidents have been W. H. Wolfe, W. Vrooman and Dennis O'Brien.

W. H. Wolfe continued as Cashier for over thirty years, when he was succeeded by G. M. Gilkeson, who in turn was succeeded by George H. Carver, the present Cashier.

The Second National Bank was the second bank in the city to organize under the National Banking law. This Bank has prospered from its very inception, and during the various panics the country has passed through since 1865 has never suspended specie payment nor failed to pay its obligations in full upon demand.

The Second National Bank gives close and careful attention to the interests of its customers, extending as broad and liberal accommodations as prudent and conservative banking will permit, and their wise discretion is shown in the uniform prosperous result and the reputation for integrity which it bears.

The approved accounts of banks, bankers, merchants and corporations are received, loans and discounts made, collections attended to, and the bank issues drafts on principal cities and traveler's letters of credit available anywhere. Convenient safety deposit boxes for the storage of valuable papers, such as notes, deeds, wills, jewelry and valuables, etc., are at the disposal of the public. This Bank is an acknowledged factor in the welfare of the business community, and the city has profited by reason of the efficiency and sufficiency of its banking facilities.

The officers of this Bank are: Dennis O'Brien, President; H. S. Wilson, Vice President; George H. Carver, Cashier. The Directors are: W. H. Wolfe, H. S. Wilson, W. N. Miller, A. B. White, R. J. A. Boreman, J. S. McKown and Dennis O'Brien.

Commercial Banking & Trust Company

Corner Third Street and Court Square

(W. Va. 1471.)

November 17, 1903, was the date of the opening of the Commercial Banking & Trust Company, with an authorized stock of \$300,000; paid up capital stock of \$105,000.

In these days of keen competition the success of a Bank is largely dependent upon the liberality of treatment accorded depositors. Recognizing this fact, it has been the policy of its officers to extend such accommodations to its customers as conservative banking methods would admit. Funds of individuals, merchants and others are welcomed, and investments of surplus money in bonds and other securities made when desired.

This Bank has every facility and power to be and has become one of the important factors in the business and finance in the city of Parkersburg. It is authorized to act as administrator, executor, trustee, and in any fiduciary capacity. In addition to this, it has a Savings Department, where any depositor may deposit any small amount at any time and be enabled to receive interest at the rate of 4 per cent on his deposit.

The Savings Department of this Bank is a growing feature, where the small depositor as well as the large one is able to add to his

savings, and at the same time receive a liberal interest on his accumulations. This particularly should appeal to that class of people whose income is limited to little more than every day requirements. A fund may be accumulated in this way, available in times of sickness or other misfortune, or for any special object. There is a feeling of security and satisfaction in having such a fund in this Bank at your command when wanted. Safety Deposit Boxes are at the service of customers at small expense.

This Bank has deposits amounting in the aggregate to \$200,000, which are constantly increasing, and is controlled by men of good business judgment and conservative ideas on strictly business lines. Its officers are: B. S. Pope, President; James A. Wetherell, Vice President, and T. J. Wetherell, Cashier. Its Directors are: B. S. Pope, H. M. Spence, Otto Schultz, George W. Strong, Louis Mansbach, R. Wild, C. P. Morrison, J. A. Wetherell, T. J. Anderson, Robert Wilson, Fred Graff, E. G. Stephenson, W. S. Keever, Geo. W. Carney, V. L. Bartlett, W. E. Stout, J. W. Dudley, J. H. Shaw, Jacob Radenbaugh, Chas. H. Betts, F. P. Ames.

West Virginia Western Telephone Company

Parkersburg, West Virginia.

The West Virginia Western Telephone Company is the oldest independent telephone company in West Virginia, and their history is an inspiration to every patriotic American who sees threat in the amalgamation of large interests and the centralization of power into the hands of the few. "As a man thinketh in his heart, so is he," and when there gathered together a few men with ideas and the courage of their convictions, who determined to introduce an independent telephone service into West Virginia, nothing daunted them, and the history of their struggle against the wiles and power of a gigantic and merciless octopus, entrenched behind a fortification of patent laws, and against the apathy or supineness of their victims, is a memory that should ever be preserved. That these men succeeded goes without saying—such courage when used with caution and with judgment has ever succeeded—and today this Company stands as leader in the independent telephone movement and the names of these men are a household word wherever telephony has its quarters.

The West Virginia Western Telephone Company was organized in February, 1898, and commenced business in Parkersburg in 1898, and after an aggressive campaign opened for business with three hundred subscribers in November of that year. Immediately their competitor cut rates for all classes of service to three dollars per year less than they offered, coming from an ex-

cessive charge to a ridiculous one, and the fight waged merrily on, for the octopus found that they were up against fighters who could and would fight, and who were keenly aware that it was only the last blow that counted. In 1902 The West Virginia Western Company had eight hundred telephone in service, when the octopus announced that they would restore their old rates, and the fight was won, and now the West Virginia Western has twenty-eight hundred telephones in use in Parkersburg, a large and growing Exchange in Marietta, many of the counties of West Virginia are covered with their wires, and prosperous exchanges of the company are located at West Union, Harrisville, Pennsboro, Ellenboro, Cairo, Auburn, Sistersville and Williamstown, and connections with Clarksburg, Fairmont, Grafton, Philippi, Elkins, Beverly, Belleville, Ravenswood, Spencer, Ripley, St. Marys, Goose Creek, Belpre, Coolville, Pomeroy, Athens, Ohio, and covering Lewis, Braxton, Gilmer, Calhoun, Harrison, Wetzel, Wood, Ritchie, Tyler, Wirt and Jackson counties, their wires connecting the subscriber with over fifty thousand business places and homes in West Virginia and Ohio, from the farmer living back in the hills to the busiest merchant in the State. And the fight that was won was one that insures permanent equitable telephone rates to subscribers, for the principle around which the fight has been conducted has been the introduction of the most satisfactory

The Operators at the Switchboard.

service at the least possible cost, and results speak for themselves.

At no time has this Company placed rates upon the old trust principle of "all that the traffic will bear," but always on the principle of enabling the workman, no matter how humble his circumstances, to find an economy and a profit in having a telephone in his home and at his service. Great credit should be given to these gentlemen for sticking to principle through thick and thin, and for not losing courage where less forceful men must have laid down their arms.

The officers of the company are: J. H. Lininger, President; J. E. Carle, Vice President; R. H. Rutherford, Secretary; C. T. Hiteshew, Treasurer; A. C. Davis, General Manager, and the Directors are: Robert H. Browse, G. D. Jeffers, Ben S. Pope, J. P. Sharp, Richard Wanless, and H. G. Feller. This is a strong and able directorate, and several of its members have been connected with the company from its organization, notably Messrs. Carle, Davis, Rutherford and Lininger. Mr. Lininger is cashier of the People's Bank at Harrisville, and an official in several other corporations. Mr. Carle is a leading farmer, stock raiser and oil producer of Wood County. Mr. Rutherford is the general manager of the Oakland Pressed Brick Company of Zanesville, Ohio. Mr. Hiteshew is cashier of the Farmers and Mechanics National Bank of Parkersburg. Mr. Davis, the Napoleon of the Independent telephone movement, devotes his attention entirely to the telephone business, and hesitates having the active management of the

Company, and the Marietta Telephone Company, is a director in several other telephone companies, and is Secretary of the West Virginia Independent Telephone Association, and one of the best known telephone men in West Virginia. Mr. Wanless is President of the Bank of Cairo, Cairo, West Virginia. Mr. Browse is capitalist and Vice President of the Pleasants County Bank of St. Marys, West Virginia, and a Director in several corporations in Wheeling and elsewhere. Mr. Feller is Director of the First National Bank of St. Marys. Mr. Sharp is a farmer and interested in several business enterprises, where he is valued for his conservatism and good judgment. Dr. Jeffers is a leading physician of Parkersburg, and a prominent business man. Mr. Pope is the General Manager of the Parkersburg Dock Company, he being one of the proprietors, and is also the President of the Commercial Banking and Trust Company of Parkersburg and a leading timber dealer.

And under this able and talented supervision the growth, development and health of the West Virginia Telephone Company, and of the independent telephone movement in Southern Ohio and West Virginia, is secure.

The above illustration shows some of the operators at work on the switchboard. The West Virginia Telephone Company employs in this department, at their Central Exchange in Parkersburg, 31 operators to look after the needs of their constantly increasing number of subscribers.

The Parkersburg Iron & Steel Company

Beechwood, Parkersburg, W. Va.
(W. Va. 3218.)

One of the most important industries of Parkersburg is the Parkersburg Iron & Steel Company. Situated beside the Ohio River, at Beechwood, the plant has ample grounds for development, as well as for present use, and the hum of industry that greets the observer tells of business that is well managed and prosperous, and constantly running to its full capacity day and night. The Parkersburg Iron & Steel Company was organized in 1901, commencing operations December 18th of that year, and since that time has run steadily and prosperously. They operate their plant continuously, working day and night, and have nearly five hundred employes on the payroll.

It is well to pause and reflect once in awhile on the magnitude and diversity of a city's interests, and what the addition of a great enterprise means to a city, and this growing concern will serve well for an illustration. They employ five hundred men. Five hundred employes at an average of twenty dollars per week (and a large percentage of their skilled workers receive much more than this), means a distribution weekly of ten thousand dollars which is expended for the support, care, education and maintenance of this army of employes, their wives and children, among the merchants and business interests of our city. All of this wealth is originated in other places and brought to our city by the sale of the pro-

ducts of this concern in world-wide markets. Nor is this all of the wealth that they introduce into the commercial life of our city. There are other commercial needs that must be bought and paid for by them, in handling, transporting raw materials and finished products by railroads, by boat lines and teaming, supplies to be purchased, and the multitude of collateral expenditures. It is but fair to believe that Parkersburg receives directly and indirectly from this concern for distribution among her merchants and producers fully \$600,000 each year. What would it mean to withdraw this vast sum yearly from the arteries of commerce of our city? The result would be the demoralization, impoverishment and paresis of many and many a business and family now prosperous, and a general lowering of the whole business tone of the city. But another enterprise of this magnitude brought here would bring business health and business life to us, and rejuvenate the same commercial life with bounding health. Read it again. Think it over.

The Parkersburg Iron & Steel Company are manufacturers of Sheet Iron, Sheet Steel, and finished steel products. Their sheet iron is greatly in demand for use in making galvanized iron, corrugated iron siding, for roofing, and for many other purposes. Their Sheet Steel is probably the most popular brand in the country for use in making auto-

Coal Barges Going Down the Ohio River.

mobile bodies and similar work, where lightness and toughness and strength must be combined in one perfect whole. Their special product is "Parkersburg Blue" Sheet Steel, a uniform colored sheet for stovepipes, elbows, dripping pans, and work where high polish and uniform color is needed.

Their finished steel products are used in making tacks, roofing, dashers, milk cans, show cards, powder kegs, soda drums, metal wheels, metal ceilings, umbrella rods, satchel frames, bicycle tubing, soda fountains, gas stoves, gasoline stoves, oak stoves, stamped ware, enameled ware, metal lathing, metal screen frames, automobile parts, and for many other purposes.

Their equipment is up-to-date in every way, including electric cranes and all modern machinery, and both electric and steam power is used, natural gas being used for fuel. They have their own machine and blacksmith shops for constructing new and repairing damaged machinery. All of the work of this firm is done under one roof, their business being entirely self-contained, and therefore receiving that personal supervision that insures the greatest production and the highest quality. They also have more than half a mile of private railway track, which is kept constantly filled; and also have a private landing on the Ohio River. Their manufactured product averages over two thousand tons per month.

The Beechwood property adjacent to the Steel Plant is controlled by the Parkersburg Iron & Steel Company, and is operated under the name of the Parkersburg Specialty

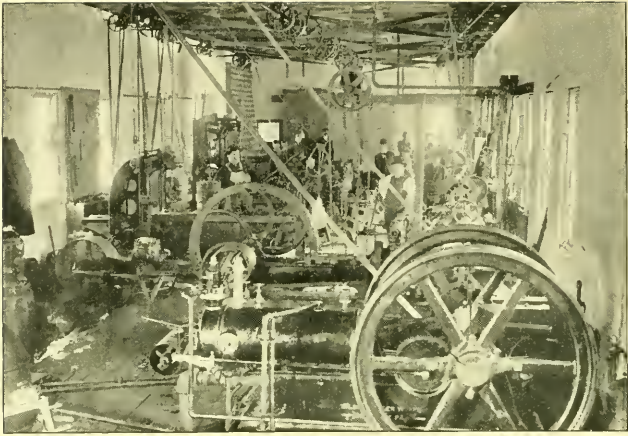

Company. Home sites and homes for workers in the plant, and also to residents of the city, are offered at very reasonable prices and terms. They also have some desirable manufacturing sites which are offered on equally advantageous terms. On account of river facilities and railroad trackage, and the level nature of the land, these sites are peculiarly desirable.

The company also operates the Budke Manufacturing Company, which makes stove pipes, elbows, dripping pans, box bands, metal lath and air-tight heater stoves. The "Acme" goods of the Budke Manufacturing Company are known throughout the country as the standard of quality in elbows, dripping pans and stove pipes.

The officers of the Parkersburg Iron & Steel Company are: C. F. Niemann, President and Treasurer; A. H. Geilfuss, Secretary; John Stephens, General Manager, and C. A. Orr, Auditor.

Spence, Smith & Kootz.

The firm of Spence & Smith was organized in 1898, to deal in Second-Hand Oil Well Supplies and Machinery, and is composed of Mr. H. M. Spence and Mr. W. S. Smith, both gentlemen having been formerly engaged in the same line in Pennsylvania. Believing Parkersburg to be a point well adapted to their particular line of business, they came here in 1898, and after thoroughly investigating the locality formed a partnership. Their business was originally established to

Spence, Smith & Kootz

Works, 116 to 120 Ann Street

Boiler Shop, Corner Williams Court Alley and First Street

(W. Va. 194.)

deal in Second-Hand Oil Well Material solely, purchasing non-productive wells, pulling out the casing, pipe, &c., and remarketing the same, together with boilers, engines, and all material pertaining to an oil well. Each year their business increased, not only in the West Virginia oil fields, but throughout the different states of Pennsylvania, Ohio, Indiana and Illinois, and extending also into the different coal mining districts of the same states.

For some years Messrs. Spence & Smith have felt the need of a Machine and Boiler Shop in connection with their business, and in the spring of 1906, after investigating the different oil centers, determined upon making Parkersburg their permanent headquarters, and establish shops here; accordingly they purchased a lot 75x175 feet on lower Ann street, and erected thereon a brick building, 36x110 feet, with commodious offices attached. They also purchased the machine shop and business of Fisher & Kootz on First street, and removed the machinery to their present location. They then organized a new partnership, taking in Mr. Albert Kootz, who was born and raised in Parkersburg, acquired his trade here, and was one of the firm purchased by Messrs. Spence & Smith. He is an able machinist, a master of his trade, and well qualified to superintend the works of the new enter-

prise. In addition, Messrs. Spence, Smith & Kootz have splendidly equipped the new works with all necessary new machinery, including Pipe Machines for the cutting and threading of all sizes of pipe, and in the old shop on First street have installed a modern Boiler Shop, with Power Shears, Punches and all machinery necessary to repair old and manufacture new Boilers. This part of the enterprise is under the superintendency of a Master Boiler Maker and Draughtsman. Particular attention is paid to repairing Steamboat Boilers, and government tested Machine Sheets are constantly kept in stock.

Messrs. Spence, Smith & Kootz have made a valuable addition to Parkersburg's industries, and their increasing business, not only from the oil fields, but from the Mill, Mine and Steamboat trades justify them in the belief that just such an institution has been needed in Parkersburg.

In addition to the new works, Messrs. Spence & Smith will engage more extensively than ever in the purchase and sale of all kinds of second-hand machinery, tubing, pipe and supplies, and are always ready to inspect and make price on all kinds and quantities of the above material and will offer for their customers to choose from a larger and better stock, one that has been thoroughly repaired in their own shops.

The Radeker Lumber Company

Office and Yards, Foot of Fifth Street.

(W. Va. 364)

West Virginia is now one of the leading lumber producing States of the Union. Her hills are still covered with the primeval growth, and many of the interior counties are yet to feel the blow of the lumberman's axe. There is timber now standing that will keep the woodsman busy for twenty years to come. But the internal development, the construction of new railway lines, the extension of her manufacturing interests, calls for this timber, and it will be many years before lumbering interests cease to prosper.

Parkersburg is the natural distributing point for the lumber of the Little Kanawha, the Big Kanawha, and the Elk River Valleys and their tributaries, to the Northern and Northeastern markets. Here the output of these Valleys is most easily and cheaply assembled, stored, and held in readiness for transportation to these markets. It is the logical meeting point of all interests—manufacturer, distributor and user.

The Radeker Lumber Company is organized to supply this need. This Company is composed of a body of men each individual of which has a thorough knowledge of the timber and lumbering business in all its branches, and taken as a whole are a composite picture of the lumbering interests of West Virginia.

Mr. C. W. R. Radeker, the President, is the President of the Nicolette Lumber Company, of Nicolette, West Virginia. Mr. J. R. H. Radeker, the Secretary and Treasurer, is Vice President of that Company, and Mr. W. W. Watterson, Vice President and General Manager, is President of the W. W. Watterson Lumber Company and Treasurer of the West Virginia Veneer Door Company.

The Radeker Lumber Company organized with a capital stock of \$25,000, fully paid in, will Wholesale and Retail Lumber throughout West Virginia, Southern Ohio and Pennsylvania. The Company have their purchasing agents along the Big Kanawha and Elk Rivers and their tributaries, along the Coal & Coke Railroad and along the Little Kanawha, and their selling agents in various West Virginia and Ohio towns, in Wheeling and in Pittsburg. The lumber they handle is mostly Oak, Poplar and Hemlock, in all grades, dimensions and thicknesses, and the firm do especially large business in car oak for building freight and passenger cars. The firm also caters to local needs, carrying nearly 500,000 feet in stock, and are prepared to meet the demands of the building trade promptly with the best of West Virginia timber, and also are ever ready to ship quickly to surrounding points both by water and rail.

Kesselman & Company

122, 124, 126 and 128 Ann Street
(W. Va. 210)

When a business man is continuously successful for over a third of a century, and when in all that time the business is constantly growing and expanding, it is an assured fact that two conditions are present—sterling integrity and a thorough knowledge of the customers' needs. The business of Kesselman & Co. was started over a third of a century ago—thirty-six years ago—by Kesselman & Baner, at Parker's Landing, Pa. Three years later William Kesselman, Sr., moved the business to St. Joe, Butler County, Pa., and eight years later he moved from there to Butler, Pa., following the development of the oil field, and the business was conducted there until 1887 by himself. In 1887, Charles Brandberg was admitted into partnership, under the firm name of Kesselman & Co.

The Parkersburg branch was established eleven years ago, by Mr. William Kesselman, Jr., and has flourished ever since, under his enterprising and energetic administration. Growing up with the business, there is not a need of a customer that he is not keenly alive to, and prompt to supply, and among the many good things which he has promoted and developed for the trade might be mentioned the "Casing Bowl," of which he is the owner of the patent and sole manufacturer, and also the Kesselman & Watson Tubing Catchers, which are also patented.

The firm manufactures a superior line of Drilling and Fishing Tools of all kinds, and

also do all kinds of forgings and general machine work. The firm does a large business throughout West Virginia, and also in other States, covering a large field in their line.

Mr. William Kesselman, Sr., is one of the oldest manufacturers of oil well tools in the country, and is still actively engaged in the business, his headquarters being at Butler, Pa., and is known throughout the trade as an honorable and upright business man, who has built up a great and successful business by strict application to and a masterful knowledge of his chosen work.

The Standard Oil Company.

If "grace" and "grease" are synonymous, the most graceful concern in America is the Standard Oil Company, and Parkersburg shares in the distribution of their grease in a graceful way. For their great Camden Refining Plant is here, employing hundreds of busy workers, and adding materially to the wealth of the city.

The reflective mind is not forever influenced by turbellations, and when one thinks of what great human good has been accomplished by this wonderful business organization, under the inspiration of that more wonderful man, John D. Rockefeller, petty differences in policies and economics pale into insignificance, and a just public mind heartily commends their every work.

The Standard Oil Company

(W. Va. 344)

Think, for instance, how rich in mineral wealth West Virginia was from the beginning of time, so much so that oil lay on the surface of many streams, and gas bubbled from the porous ground in many places. And in spite of this evidence of wealth, these resources lay undeveloped. And again, think how many small farmers dwelt beside these streams, suffering in an apathy of poverty and malaria and lack of education, their offspring dying from blighting afflictions, and they powerless to defend them from the typhoid and malarial conditions, in their wretchedness and lack of knowledge, and compelled to watch them suffer and to die. And yet again how many places in this country are rich today in a wealth of mineral resources, whose population suffers from a lack of their development. In this light, look upon the countenance of "Uncle John," grace and grease oozing from his smile, for wherever that smile rested there came development. Wealth that was wasted he gathered, the volume so great that the insignificant percentage he retained, and that made his colossal fortune, was but a pygmy beside the wealth he developed for you and me. The man in the isolated district beside the stream found that he was suddenly placed near a center of population, could educate his children, could give them proper medical supervision, could build better homes, could wear better clothing, and could look with equanimity upon the future of his growing sons, and find them profitable employment. And the former apathy gave way to cheerful optimism. For he had all he had

before, was disturbed in none of his customs, and received both a direct and an indirect profit upon every operation of "Uncle John's." And more, all that science and chemistry and metallurgy could do was applied to the solution of the problem of the essential qualities of the "grease." Valuable medicines were discovered that add to the comfort of living in material ways. New commercial uses were developed, and the "by-product" became the real product and the oil itself became the "by-product," and thousands of families throughout this section are living in affluence today because of it, and are pleased with "Uncle John" and his greaseful ways, secure in the knowledge that the utmost will be done that brains and science can do to get the greatest good to the greatest number, and to save and conserve the source of supply, for of course for every barrel that is taken from the earth means that much forever gone, as there is no way of replacing the original fluid, except in the alchemy of ages and of nature.

Thus, the Standard Oil Company stands not only as a great business enterprise, the highest commercial development reached by the human mind, but also stands as a barrier against the wanton waste of a mineral that once exhausted can never be replaced, and for the highest development of that mineral to the needs and uses of mankind.

And in their Parkersburg field of development, their Camden Works, of which the above picture is a birdseye view, they give employment to several hundred men, and are a material factor in Parkersburg's industries and progress.

Masonic Temple of Fairmont, just completed by the Brady Construction & Engineering Company.

The Brady Construction & Engineering Co.

507 to 512 Union Trust Building

(W. Va. 1776)

The Brady Construction & Engineering Company is a splendid example of the development that is accomplished when science and skill are reinforced by push and enterprise.

The Brady Construction Company, the parent of the present concern, was incorporated in 1901, with its principal office at Clarksburg, West Virginia, and was capitalized at \$10,000. In February, 1903, they removed to Fairmont, West Virginia.

So rapid was their development that in June, 1906, they increased their capital stock to \$50,000, changing the name to the Brady Construction & Engineering Company, and locating their principal offices in the Union Trust Building, Parkersburg, West Virginia.

No contract is too large for them to undertake, and no contract has been taken that has not been pushed to a prompt and successful conclusion. Their work includes Banks, Office Buildings, School Buildings,

Factory Buildings, Plain and Reinforced Concrete Construction, Light Frame Construction, such as miner's houses; Heavy Timber Construction, Coal Tipples, Washers, Grading, Railroad Construction, etc.

Among other large contracts for grading, they now have in process the 80-foot avenue for the Parkersburg Industrial Company, and also the Concrete Masonry Piers and grading of approach for the Parkersburg & South Side Bridge Company, all on the south side of the Little Kanawha River, at Parkersburg.

They also do High-Class Engineering, Railroad Surveys, Mine Work, etc., and furnish estimates on any class of construction or engineering work in any part of the country upon request.

The present officers of the company are S. D. Brady, President; G. E. Suck, Secretary and Treasurer.

Parkersburg Artificial Stone Company

Corner of Jeannette and George Streets

(W. Va. 19)

One of the new enterprises of Parkersburg that deserves more than passing mention is the Parkersburg Artificial Stone Company, which is located at the corner of Jeannette and George streets.

This concern was established in 1903. In 1905 it was incorporated by W. W. Watterson, C. F. Hannaman, S. H. Lowther, L. Kendall and T. F. Campbell, and is now a thriving and prosperous industry. The factory occupies a building 35 feet wide by 144 feet in length. It is situated within convenient distance of the B. & O. Railroad, and when the new yard tracks are laid a line will extend to the door of the factory. The building is constructed of artificial stone, is one story high, and perfectly frost-proof, so that work can be carried on at all times. It is equipped with the most up-to-date machinery, consisting of steam engine, mixer, steel trucks and other appliances, and now has 1,800 feet of trackage, which is utilized to the full extent in carrying on the work.

The factory manufactures but one thing—artificial stone—made from concrete by a patent process, of sand and cement, and is produced at the rate of 600 square feet a day. A large stock is constantly kept on hand, usually about 20,000 feet, enough to build four or five moderate-size houses.

The stone is made both plain for use in walls, and ornamental for use in trimming,

and is used for a wide variety of purposes. Whole buildings are made of it, and experience shows them to be the cheapest buildings in the world. Such houses cost about the same as ordinary brick, and much less than pressed brick houses. They are as durable as stone. Owing to the peculiar ventilating system used, they are dryer than either brick or stone, and easier to heat. All over the country an increasing number of artificial stone houses are being built each year, and reports from them have all been favorable. Very few people realize the lasting qualities of concrete, but when it is remembered that concrete of substantially the same composition made 3,000 years ago is still well preserved, and shows no signs of crumbling or decay, while stone cut in the same period has crumbled into dust, some idea of the wonderful endurance of this material can be obtained. Impervious to heat or frost, hardening by exposure to the weather, never shrinking, cracking or warping, it is the best substance ever discovered for fire walls, and is the ideal building material, both for houses, and for foundations, chimneys, sustaining walls, colonial columns, trimmings, and many other purposes.

At the present time the company employs fifteen men, and with increasing appreciation of the value of this form of building material, is bound to have a steadily increasing trade.

The National Plaster & Supply Company

On B. & O. R. R. near George Street

(W. Va. 1408)

The National Plaster & Supply Company is a West Virginia corporation, organized in March, 1905, with a capitalization of \$15,000; this being increased in January of this year to \$25,000, the increased capital being necessary in order to meet the requirements of the growing business.

The present officers are: S. T. Mallory, President; Senator Thomas Gartlan, Vice President, and J. B. Arbour, Manager.

The manufactured product of the company consists of "EGYPTIAN" Hard-Wall Plaster. The factory buildings, which are located advantageously on the B. & O. R. R., near George street, being completely equipped for the manufacture of this material, having a capacity of forty tons per day. Present plans include improvements in the present plant, permitting of more rapid and economical handling of materials. Extreme care is used in every detail of manufacture, none but the highest grade materials of their kind are allowed to enter into the composition and all materials are so thoroughly mixed as to make an absolutely uniform Plaster. By reason of the policy of the company aiming always toward High Quality, "EGYPTIAN" has come to be recognized as the Standard Plaster; commands in many markets a higher price than competitive materials, and is conceded to be a leader among Wall Plasters. The features commending "EGYP-

TIAN" are Hardness, Durability, Great Tensile Strength, Sanitary (containing no vegetable matter), and it is affected by neither heat nor cold. Is also Fireproof, and mention is made of the fact that instances have been known where Egyptian Walls have stood intact without support, after all studding had been burned away. With such distinct advantages over other materials, the popularity of this high grade material is accounted for, and prospective builders looking for the best should consider no substitute.

Shipments are made over Southern Ohio and West Virginia, and the scope of operations of the company are constantly broadening. In order to more efficiently serve its customers in that territory contiguous to Huntington, W. Va., there has been established in that city a branch office and warehouse, and the present quarters being outgrown, a new modern wareroom, meeting the requirements of the company, will be erected there within the next few months.

This company is also an extensive dealer in all lines of Builders' Supplies. Among these might be mentioned "DRAGON" Portland Cement, being a strictly high-grade American Portland, extensively used by the government and the leading railroad companies. Locally, Dragon is extensively used in sidewalk construction and concrete work

The W. H. Smith Hardware Company

117 and 119 Third Street, Parkersburg, W. Va.

(W. Va. 330)

in general. Particular mention is made, however, of its use in the two most important pieces of concrete work in the city, viz: the concrete foundation supporting the six-story Brown-Kendall building, and the piers of the new bridge to the South Side, 6,000 barrels being used in the latter mentioned work alone.

Other lines include "EGYPTIAN" White Rock Finish, the highest grade white finishing material for interior walls on the market. "J. M." Asbestos Roofing, Natural Cements, Sewer Pipe, Lime, etc. In all materials in which the company deals it is in position to name competitive prices for either less than carload or for carload shipments, and inquiries from the trade are earnestly solicited.

The W. H. Smith Hardware Company.

The business of The W. H. Smith Hardware Company was established in 1874, first as a partnership; later it was incorporated under the laws of West Virginia, with W. H. Smith, Sr., as its first President. Upon the death of W. H. Smith, February 22, 1906, W. H. Smith, Jr., succeeded to the presidency of the company. At this time W. H. Smith, T. P. Smith, Levin Smith, C. W.

Edelen and J. T. McMechen compose the Board of Directors.

The officers are: W. H. Smith, President; C. W. Edelen, Vice President; T. P. Smith, Secretary.

Soon after its organization the company embarked in the wholesale business, sending its salesmen into nearly all sections of the State, as well as Southeastern Ohio. In this way, and by judicious advertising, it has done much to establish the reputation of Parkersburg as a distributing point and commercial center, as well as assist in the growth and prosperity of the city.

The company, with one exception, a disastrous fire in August, 1899, by which it sustained a heavy loss, has had an uninterrupted growth and prosperous career. The management, by correct business methods, always abreast of the times, public spirit, enterprise and fair dealings, have developed a leading position in the Wholesale Hardware business of the State, and now has probably the best equipped establishment of the kind in the Central Ohio Valley. The company confidently look forward to greater growth and increased prosperity for Parkersburg, in which, with other interests, it hopes to share.

The Brown-Kendall Company

Wholesale Notions and Furnishings

514 Juliana Street, Parkersburg, W. Va.

(W. Va. 1581)

A very successful enterprise, newly organized in Parkersburg, West Virginia, is that of the Wholesale Notions and Furnishings firm known as The Brown-Kendall Company, at 514 Juliana street. Incorporated under the laws of the State of West Virginia. June 20, 1904, with J. S. Brown, President; M. A. Kendall, Vice President, and J. A. Brown, Secretary and Treasurer. The Brown-Kendall Company began active business operations the following February, in a building owned by the Graham-Bumgarner Company.

Soon after the beginning of their successful undertaking their quarters were found far too small to accommodate their rapidly increasing business, and in the fall of 1906 they built one of the most modern business buildings in West Virginia to care for their large and rapidly expanding trade.

"Great oaks from little acorns grow." Be-

ing amply financed and managed with business judgment and energetic zeal, buying merchandise admirably adapted to their trade, and then letting the trade know that they had the goods, has brought this enterprising firm abounding success, and they have had the pleasure of seeing the acorn planted in 1904 develop into the sturdy oak of 1907, with its branches extending over all parts of West Virginia and Southeastern Ohio.

Well satisfied customers throughout the State insure their continued success, and they are rapidly becoming the leading Wholesale Notions and Ladies' and Gents' Furnishing House of West Virginia.

The same fidelity to their customers' interests which has brought them such deserved success still continues and characterizes the methods of this enterprising firm, and their permanent success is assured.

Graham-Bumgarner Company

Paid up Capital, \$200,000.

Manufacturers and Jobbers of Boots and Shoes. Exclusive Agents for Hood and Old Colony Rubbers.

516 and 518 Juliana Street, Parkersburg, W. Va.

(W. Va. 553)

Parkersburg people have seen our business develop from infancy into the strength and vigor of youth. It has been a period of steady growth, every year showing a satisfactory gain over the former one. We attribute this to our constant effort to always serve the best interests of our customers. Our sales have now reached an annual volume considerably larger than those of most shoe jobbers in cities the size of Parkersburg. In fact, we cannot expect to greatly increase our business as jobbers, because the local jobbers' territory is necessarily limited. But the manufacturer has no limit to his opportunities for expansion. For this reason we are now erecting the **FIRST SHOE FACTORY EVER BUILT IN THE**

STATE OF WEST VIRGINIA. In this factory we will make a high grade line of shoes for workingmen. Just as rapidly as is expedient, we expect to erect factories for the manufacture of other lines, the next probably being for women's medium-priced shoes.

Our success as manufacturers means much to Parkersburg. It means steady employment at good wages to scores of men and women. Now, we want every Parkersburger to "boost" for us when he can. Ask your dealer for "Parkersburg-made" shoes, and tell your out-of-town merchant friends about us. And **MR. PARKERSBURG MERCHANT**, don't you think it would be good policy to boost your own business by boosting home industry?

Crystal Springs Water

Springdale, Parkersburg, W. Va.

(W. Va. 221)

The health of a city depends upon the purity of its water supply.

The common mistake that filters purify water is misleading. Most impurities and the bacteria of most diseases caused from impure water are held in solution, and only the material vegetable matter is removed by filtering, leaving a transparent and beautiful water, but like the Isle of Cyprus, "filled with dead men's bones."

Parkersburg is blessed in having at her door one of the finest springs of pure chalybeate water to be found. The discovery of this wonderful Spring was made but a few years ago, and with each succeeding year since that discovery the merit and quality of this water has increased its popular favor, and added a constantly increasing number of consumers, and it is now in daily use in all the leading hotels and homes of our beautiful city.

Crystal Springs Water is nature's purest and most wholesome remedy for most of mankind's ills. Given plenty of wholesome exercise in pure air, and with pure water to clear the system and cleanse the blood, sickness among humankind will be as rare as among the brute creation.

Crystal Springs Water, the purest of table water, contains all the goodness and power of prevention that is claimed for the best or

imported waters, because it is absolutely free from all possible contact with decaying animal or vegetable matter, but gushes from the earth pure and undefiled, and in such volume as to adequately supply the needs of Parkersburg for all drinking and culinary purposes.

Every precaution is taken in the handling of this Water, that no bacteria or dirt of any description approaches it. Bottles are sterilized before filling, and securely corked against the decomposition by atmospheric influences, so that when it reaches you it is pure and free from any disease-bearing germs. One trial will convince you of its delightful purity. "It adds years to one's life and life to one's years," and continued use brings purer blood and better health.

The price of Crystal Springs Water makes it no longer a luxury. It is within the easy reach of every family, no matter how humble their circumstances. For Crystal Springs Water the charge is 50 cents per dozen half-gallon bottles, and 25 cents for 5-gallon carboys.

Telephone for a trial sample bottle. Call up West Virginia Western phone 221 today, and prove for yourself the value in health and comfort we offer you, and that Crystal Springs Water is the purest and best of nature's waters.

CRYSTAL SPRINGS WATER CO.,

F. M. Gould, Prop.

The Star Grocer Company

Corner of Juliana and Second Streets, Parkersburg, W. Va.

(W. Va. 290)

The Star Grocer Company is the youngest Wholesale Grocery House in Parkersburg, and the most vigorous. From a small concern, but full of push and enterprise, they have in less than ten years won first place as the leading Wholesale Grocery House in Parkersburg, and, for that matter, in this section of West Virginia. Nothing has been left undone that could be done to make their business more successful, and their never failing tact, courtesy, enterprise and careful consideration of their customers' needs, has won them this distinction in this remarkably short period of time. They have ever been prompt to meet the changing conditions and needs of a growing business, and had little more than started when they found their space inadequate for their needs and resolved upon more commodious quarters, and decided to build a modern Wholesale Grocery Warehouse especially adapted to their use.

Therefore, in 1901, they obtained a piece of ground in the very heart of the shipping district, only a block and a half from the boat landing and one block from the freight depot, and on it built a Warehouse 43 x 85, with four stories and basement, and equipped it with every modern device that was practical for the better care and handling of their goods. This building was planned by men who knew from practical experi-

ence just what was needed to make it convenient, and especial attention was given to the classification of goods and adaptability to the quick assembling of orders to insure prompt shipment, a very necessary feature in caring for the retail trade's most urgent needs; with the result that there is nowhere in West Virginia, and probably nowhere in the country, a more modern and up-to-date Wholesale Grocery Warehouse to be found. Among other advantages they installed a private railway track to enable them to handle goods at the least cost and with the least delay and waste, and also insuring quick shipments of large orders to their customers.

That their trade in general appreciate this consideration of their needs is shown in the steadily increasing business that comes to this hustling firm, and the fact that a customer once gained remains a loyal friend as well as customer.

Everywhere throughout their warerooms business is moving like a piece of well oiled machinery, without confusion and with clock-like regularity, bringing a maximum net result, the warehouse being equipped with every appliance that will aid the employee in his work, and facilitate the assembling of orders.

On the road the House is represented by an active and aggressive force of traveling

The Parkersburg Brewing Company

Seventh Street, between Green and Swann

(W. Va. 5)

salesmen, who have worked zealously for the House's interests and have proven of far more than the average ability, and who have made of business a pleasure, and won a legion of friends for both themselves and the House they represent, a genial friendly company of travelers whom it is a pleasure to meet and do business with. And the House thoroughly appreciates their services, realizing that the old saying is true, "A house is what its salesmen make it."

Thus the Star Grocer Company stands at the beginning of 1907 not only as the leading Wholesale Grocery Company of Parkersburg, and this section of West Virginia, but with the brightest of prospects for a still greater trade. And notwithstanding the hustle incidental to an active and well-cared for business, the man calling on business will be met with a heart-warming welcome that at once places him en rapport with the House, and will find it a pleasure to place his interests in their care, knowing that he will have as careful personal attention given to his needs as he himself could give, and that courtesy, prompt shipment and perfect goods are an undeviating rule with the House, and that everything possible will be done to make it both a pleasure and profit to do business with them.

The officers of the Company are W. T. Wiant, President; J. C. Brohard, Secretary, and W. C. McConaughy, Treasurer and Manager.

The Parkersburg Brewing Company

The Parkersburg Brewing Company was incorporated under the laws of West Virginia June 24, 1889, with M. Rapp as President, C. Goetz, Vice President, and W. H. F. Kelly, Secretary. The first beer from the new brewery was delivered in August, 1890, and the demand for the product has steadily increased from that time, entailing a constant enlargement of the plant and the introduction of improved machinery from time to time to meet the growing demand. The buildings of the company now cover several acres of ground, and are built of the most solid masonry. A fine electric plant furnishes the light for all the buildings, and the latest improved ice machine supplies the large quantity of ice used in the manufacture of the thousands of barrels of beer made here. The first impression one receives on entering the plant is of the courtesy of the attendants, and the absolute cleanliness that prevails everywhere throughout the place. The buildings are most conveniently divided off. Everything is handy and convenient.

The plant keeps fifty men constantly employed.

Nothing but the finest seasoned imported hops enter into the composition of their beers, and the water is the purest artesian, which, with the sanitary precautions taken, make their beers the purest, most delicious, and most wholesome—the beer that replaces others but is never replaced.

Lock and Dam, No. 18, Parkersburg, W. Va.

The brands of beer made by the Parkersburg Brewing Company are "Genuine Pilsener," "Extra Old Lager," and "Club Export." The latter is bottled for export and has obtained a high reputation for its medicinal qualities and for family use.

The brewing is under the personal supervision of Head Brewer Frank Hemmrich, a thorough master of all the details of the art of brewing, whose long experience under German instruction makes him take front rank with the best in America, who has been with the company ever since its organization.

The Bottling Department is under the management of Mr. G. L. Fries, an old Parkersburg citizen, being born and raised here, and is well known and popular with a wide circle of friends and acquaintances. This department is supplied with all the latest appliances and conveniences, and is kept constantly busy to supply the large demand.

Mr. Carl Goetz is collector and traveling agent for the firm, and is a well known and popular salesman, with a large circle of friends throughout Southeastern Ohio and West Virginia.

Mr. Frank McKim is now bookkeeper, the position formerly held by Mr. Goetz.

The present officers of the company are: Daniel Schafer, President; J. H. Kelly, Vice President; W. H. F. Kelly, Secretary; Conrad Goetz, Treasurer and General Manager. Of these officers, Mr. Conrad Goetz and Mr.

W. H. F. Kelly have been identified with the firm from the beginning.

Visitors to the plant are always welcome, and are shown every courtesy, and polite attendants take pleasure in explaining the minutest details of the brewing from the malt and hops to the great vats of finished product, ice cold, in the seclusion of the cellars, three of which are required to hold the stock kept constantly on hand.

The Camden Theater

The Camden Theater, of which the above photograph was taken during the performance of "The Girl That Looks Like Me," by Kathryn Osterman, New Year's matinee, is the finest theater in any town of this size in the Southwest. It is modern and has a seating capacity of 1400, and its stage will accommodate the largest road production. This Theater brings to Parkersburg a magnificent line of high class attractions, and the gratifying success which it has achieved shows that the effort of the management to secure only high class attractions is keenly appreciated by the theater-going public. Fully 50,000 people make The Camden their theater home. Three street car lines pass the entrance, and the Inter-Urban line is but a block away, making it easily accessible from all parts of the city, the suburbs and adjacent towns. In fact, so pleasant and comfortable is the seating arrangement, and so fine are the acoustics, that a steady client-

The Camden Theater

West Side Market Street, between Seventh and Eighth

(W. Va. 402)

tele from neighboring towns prefer this theater to those located in their own place, and visit here regularly. The theater is but two blocks from the B. & O. depot, and near all the leading hotels, making it ideally convenient in every way.

Under the able management of Mr. L. M. Luchs this theater has played to capacity houses this season such plays as Kathryn Osterman in "The Girl That Looks Like Me," "The Lion and the Mouse," "Wonderland," Lew Dockstader's Minstrels, "The Maid and the Mummy," Mildred Holland in "A Paradise of Lies," Richard Carle in "The Mayor of Tokio," Little Johnnie Jones, "Mrs. Wiggs of the Cabbage Patch," "The Clausman," Wm. H. Crane and Ellis Jeffreys in "She Stoops to Conquer," Malcolm Arbuckle in the "County Chairman," Jess Dandy in the "Prince of Pilsen," Marie Cahill in "Marrying Mary," Dustin Farnum in "The Virginian," Al G. Field's Minstrels, Paul Gilmore in "At Yale," Robert Edeson in "Strong Heart," and has in prospect many of the leading plays on the American stage, such as "The College Widow," "Squaw Man," "Red Feather," Mme. Modjeska, "Coming Thro' the Rye," and others, including many of the reigning stars.

Especially noteworthy are conveniences not usually found in theaters of this class, notably the promenade foyer, and check room, the ample space for ingress and exit, making a panic scarcely possible; the unusu-

ally comfortable seats, the excellence of the orchestra; in fact, the stranger in the town is surprised at the many little finishing touches for his pleasure, convenience and comfort, so seldom found, as to be a constant and pleasant surprise.

The "Star" dressing rooms are magnificently equipped, and have been pronounced by the "profession" to be as handsome as are found anywhere in this country. As to the remainder of the dressing rooms, nothing has been left undone that will add to the comfort and convenience behind the footlights.

The theater is equipped with commodious boxes, handsomely furnished to accommodate theater parties, etc. Great attention has been paid to the construction and equipment to prevent fire. The walls of the building are twenty-eight inches thick. A very heavy wall running from the basement to the roof, divides the stage from the audience, and with the heavy asbestos curtain the stage is entirely separated from the main auditorium.

Automatic fire shutters are located at every opening between the stage and the auditorium room. A fire hose is located on every floor, which is connected with the city water.

In fact, the theater is constructed as near fire-proof as possible, and every precaution has been taken to make the theater absolutely safe.

The Parkersburg Dispatch-News

City Hall Place, Parkersburg, W. Va.

(Business Offices, W. Va. 503. Editorial Rooms, W. Va. 520)

The Camden Theater has recently been leased to a corporation projected by the well known theatrical firm of Nixon & Zimmerman. This will assure the public of a very fine line of attractions for the coming seasons.

The Opera Block Investment Company built and own the entire block in which is located the Camden Theater, this being one of the most attractive business blocks in the city of Parkersburg. The Directors of the Company are: Senator J. N. Camden, Pres.; H. H. Moss, Vice Pres.; S. D. Camden, Secy; H. P. Moss, Treas.; W. N. Chancellor.

The Parkersburg Dispatch-News is the foremost newspaper published in West Virginia within the vast region of the Ohio Valley between Wheeling and Cincinnati. It is the only morning newspaper published in Parkersburg, and serves a wider scope of territory than any other newspaper in West Virginia. It has the world-wide Associated Press service, thereby giving its readers news of both hemispheres.

Locally it covers the state of West Virginia and in particular detail all the counties tributary to Wood, and within a radius of 50 to 100 miles from Parkersburg.

It is without a rival in Parkersburg in circulation, in news service, and in usefulness and value to reader and advertiser. Outside of Parkersburg it has subscribers in every county in West Virginia. Its particular territory outside of Parkersburg and Wood county embraces a wide area of populous and prosperous country, wherein it serves thousands of readers, the majority of whom take no other daily newspaper. Among the coun-

The Parkersburg High School.

ties embraced in this territory are: Ritchie, Wirt, Pleasants, Calhoun, Doddridge, Roane, Jackson, Harrison, Gilmer, Braxton, Mason Lewis, Taylor, Barbour, Wetzel, Tyler.

This field of newspaperdom is almost exclusively tributary to Parkersburg and The Dispatch-News, and through this territory the local news of Parkersburg and of West Virginia and the leading news events of the United States and of the world, are published by The Dispatch-News fresh from the midnight and early morning types of the printer ahead of all competitors, going out on the early morning trains in all directions from Parkersburg.

In the undisputed field of such a wide and populous territory, with the splendid city of Parkersburg for the base of its operations, The Dispatch-News is growing and will continue to grow to the influence, power and circulation of a truly metropolitan newspaper.

No intelligent individual, no up-to-date family or home, no business man within these borders, can afford to be without this paper. It gets there first, it has the best, and its circle of daily readers is limited only to the population within its natural territory.

Besides the foregoing, the following are many other manufacturers and large employers of labor in Parkersburg:

- A. B. Copen, Brick Maker.
- M. B. Stephenson, Brick Maker.
- O. O. Tolles Brick Co.

- Logan Carriage Co.
- Parkersburg Chair Co.
- Parkersburg Dock Co.

- Case Manufacturing Co.

Col. Charles B. Kefauver

President of the Parkersburg Dispatch-News.

Of the men who have the interests of Parkersburg at heart and are working earnestly for her welfare and advancement, one of the most prominent is Col. Charles B. Kefauver. A daily newspaper is always a strong weapon, and when used with judgment and conservatism, can be made a mighty force in the constructive work of a city. The whole history of Col. Kefauver shows that The Dispatch-News is in the hands of a man who will wield it mightily for the city's welfare. Col. Kefauver has been always active in political life in the State, and has been a strong factor in helping many a deserving man to a higher political position. He stands by his friends, and his worst enemy will not accuse him of truckling or trading. He can take a licking gracefully, but he cannot stand aside and see a friend whipped. He has occupied numerous responsible political positions, nearly or quite all of them by appointment without request or solicitation upon his part. He began his political career and became identified with the Republican politics of the State while a correspondent for newspapers at Grafton. His first official position was as Secretary of the Taylor County Republican Executive Committee and as confidential secretary to Hon. Thomas E. Davis, who was Republican candidate for Governor in 1892. Later he was Secretary of the Second District Congressional Committee in 1896, for Judge Alston G. Dayton, who was re-elected to Congress from that district. During the administration of Governor Atkinson he was in charge of the Insurance Department

in the State Auditor's office, and was appointed by Governor Atkinson, without solicitation as State Bank Examiner, serving the last year of Atkinson's administration. Prior to that, in 1898, Col. Kefauver was appointed by Gen. George W. Curtin as Brigade Adjutant General of the West Virginia National Guard, with rank of Lieutenant Colonel, serving in this position for nearly three years, and surrendered same when he entered the Government service as cashier in the local Revenue Office under Thomas E. Davis.

After this Col. Kefauver became Secretary and General Superintendent of the Cairo & Kanawha Railway Company, which position he now holds.

The Dispatch-News will receive the most of Col. Kefauver's attention, and the results he is bringing tell more than volumes of fulsome praise can tell of his adaptability to the management of a successful newspaper.

Col. Kefauver was born in Baltimore, Maryland, and was educated in the Baltimore City College. He is a member of the Blennerhassett Club, but no society circumscribes his sphere of influence. He numbers his friends as a tree numbers its leaves, and many a grateful man looks back to the time when "Charlie" Kefauver's friendship was the controlling force that lifted him into the position which his ambition craved. Democratic and unassuming in manner, he is one of the most approachable men in the city, and is a type of the active young business men on which the future of Parkersburg depends.

A. C. Davis

General Manager West Virginia Western Telephone Company

To tell you the story comprised within the forty-one years of active and aggressive life of the subject of this sketch would take several volumes. To condense it is almost impossible, for he has lived more to the square inch than most men have to the cubic yard. The dominant note is that A. C. Davis is a man who so dearly loves peace that he will fight for it—and always has. He can't be whipped, for he don't know when you have got him whipped, and will fight from any position, up, down or sidewise.

And when he fights, size don't scare him, nor time doesn't count. He doesn't fight by rounds and rules, but fights till he whips. That he is self-made goes without saying. Usually when you say a man is self-made you mean he is the good one out of a bad bunch. Davis isn't. He comes from a fine family and a fine home. But he just had to have an independent career and had to make it for himself. He was too enthusiastic and progressive to follow precedent, so he cut his own way through the commercial wilderness and cleared his own ground. Naturally the point of greatest resistance was the point that attracted him most. A fat, easy and dreamy proposition don't attract Davis. It has got to have bumps and angles, and rocks strewn along the way, to look inviting to him. He is always at high pressure and in working order, and to tell what he has accomplished is simply to write the history of what he has undertaken. Take for instance the following list:

General Manager of the West Virginia Western Telephone Company, Parkersburg, W. Va.

Secretary and General Manager of the Marietta Telephone Company, Marietta, O.

Secretary of the Caldwell-Marietta Telephone Company.

Secretary and Treasurer of the West Vir-

ginia Telephone, Telegraph and Transportation Co.

Secretary West Virginia Independent Telephone Association.

Secretary Parkersburg Novelty and Specialty Co.

Secretary Oakland Pressed Brick Co.

Director Parkersburg Banking and Trust Company.

Vice President Caldwell Independent Telephone Company.

Director Ravenswood Telephone Company.

And an officer or director in many other corporations in West Virginia and other States.

Any time you want to find Davis go in the fore front where the crowd is greatest and the fighting is the thickest—but if you don't want to get hurt keep back of him. There is no one man today who has done more to lift the mask from the bugaboo of hypothetical power supposed to have been centered in great corporations where it could not be governed or controlled, and who has shown that the largest octopus is but a bubble to be pricked by determined and aggressive men.

Mr. Davis was born in Harrison County, West Virginia, September 21, 1866, and was educated in the public schools of West Virginia, and afterward in Alfred University, New York, and Central University of Indiana. He is a graduate in Civil Engineering, and in his earlier business career taught in public and private schools, and later was bookkeeper and auditor. He was Auditor and Office Manager of the West Virginia Western Telephone Company from 1898 to 1901, and has been General Manager of that Company from 1901 to the present time. His whole business career has been one of aggressive constructive work, and Parkersburg is proud to claim him as her own.

T. R. Cowell

Vice President Cairo & Kanawha Railway Company

Among the many oil producers who came to this field during the oil excitement of twelve years ago at Sistersville, and who remained to invest in and upbuild the city's industrial life, no man is better or more favorably known than T. R. Cowell.

Mr. Cowell began his career in the oil field here, in the employ of the Fisher Oil Company, getting up at five o'clock in the morning and riding all day inspecting the drilling of their various wells, and thus gaining a fundamental and practical experience in the oil business, which naturally led him into oil production for himself.

Since that time Mr. Cowell has drilled more wildcat wells, developed more new territory, has opened up more oil pools, and has organized more oil companies than any other one man in West Virginia, and a peculiar feature of his whole oil producing career is that every man identified with him has always prospered. When one considers the risks attendant upon the development of wildcat fields this is truly remarkable. He was one of the first ones to drill in the Elk Fork field in Tyler County, West Virginia, and also drilled in one of the first wells in Ben's Run pool that opened up one of the best Cow Run pools in Pleasants County, West Virginia. He promoted the company that drilled the first well in the Bloomfield pool, Washington County, Ohio, and many others.

Mr. Cowell is interested in oil properties in West Virginia, Illinois and Kentucky, owning 12,000 acres of oil leases in Ritchie County, and buys and sells more large oil

properties than any other one man in the State. Mr. Cowell moved his residence to Parkersburg four years ago, and is one of the city's wide-awake and progressive business men, probably being best known outside of the oil business because of his connection with the Cairo & Kanawha Railway Company, of which he is Vice President. Among the many industries with which Mr. Cowell is identified or which he has had a material influence in establishing in Parkersburg is the National Plaster & Supply Company, of which he is a Director, which was recently enlarged and recapitalized, and which maintains about fifteen employes; the Ohio Valley Bending Company, employing about thirty-five men, the Cairo & Kanawha Railway with a veritable army of employes; and he is a stockholder in numerous other concerns and enterprises.

Mr. Cowell was born at Oil City, Pennsylvania, and was educated at Holbrook Military Academy, Ossining, New York, and the United States Military Academy at West Point, New York, and for a time was Assistant Military Instructor at Holbrook. He was appointed First Lieutenant Adjutant, Second Infantry, West Virginia National Guard, in 1902, by Governor White, and was appointed Captain Adjutant, Second Infantry, West Virginia National Guard, February 3, 1905, by Governor Dawson. Mr. Cowell is a member of the Elks Club, the Blennerhassett Club, the Country Club, and stands high in Masonic circles, and is everywhere regarded as one of the best of Parkersburg's coming young business men.

J. Mentor Caldwell

J. Mentor Caldwell, a graduate of the Columbian University of Washington, D. C., is one of Parkersburg's popular and progressive young attorneys, who had confidence in the future of his home city, and therefore established his every interest here. Being an optimist in the highest sense of the word, the travail of the day does not discourage him, and he identifies himself with those interests that tend to develop and upbuild a better and a greater Parkersburg. He never loses an opportunity at home or abroad to tell of the progress and prosperity of his native State and of Parkersburg, the coming industrial city of the great Ohio Valley, knowing that from her superior geographical position, natural advantages and proximity to the great natural wealth of West Virginia, she must act as a distributing center for this wealth to the north, northwest and northeast, and that also from her superior strategic position she furnishes to manufactures of coal, iron and lumber a center where these commodities can be assembled cheapest, be manufactured at least cost and distributed to the great marts of the world at the lowest price.

Mr. Caldwell is Republican in politics, feeling that it is the duty of every good citizen to take a deep and abiding personal interest in the political as well as the social and industrial progress of his city, State and Nation, and is active and aggressive in his party's interests. He is Chairman of the

Senatorial Committee; Member of the Executive Committee of Wood County, and Secretary of the City Republican Executive Committee, and is a speaker and indefatigable worker in each campaign.

Mr. Caldwell is charitable, jovial and warm-hearted, and has a good word for everybody. The poor have found in him a friend in time of trouble, and in times of distress he has always been a willing worker, using every effort to succor the afflicted and to re-establish normal conditions.

Whatever adds to the interests of Parkersburg finds in Mr. Caldwell an enthusiastic supporter, and whatever he gives his support finds in him a tireless worker, as he acknowledges no such word as "fail." Realizing the value of a Red Book, showing the commercial, industrial and social advantages of his home city, he disregarded any question of financial loss to himself and lent every energy to produce a book that would be a credit to the city and show the many advantages comprised within her borders, and to him may be ascribed the credit for the present unique work, which we herewith present to you.

Mr. Caldwell is an attorney with a large and growing practice, and is a "hustler" whose every effort is for progress and prosperity, and whose tireless energy is devoted both politically and socially to make a better and a greater Parkersburg.

The Willard School.

Parkersburg Schools

Parkersburg schools are among the best to be found anywhere in the country, involving a modern educational system complete in all its branches. Not only is a sound training in English and mathematics given, but also the collateral branches, including Department, Music, Drawing, Physical Culture, German, etc.

Her school buildings are modern and up-to-date, with careful attention paid to heating, lighting and ventilation, and will compare well with the best to be found anywhere. Her corps of teachers are well trained and enthusiastic in their work, and are under the supervision of a superintendent whose years of training in the schools qualifies him to know the every need of the schools, and to give them direct personal supervision.

Tuition is free to all residents of the city. Especial emphasis must be laid upon the fact that from the primary grade to the time of graduation books are furnished free of charge, placing a fine scholastic training within the reach of even the most humble.

Non-residents pay a tuition fee of one dollar per month in the grade schools and of two dollars per month in the High School.

The Association building, costing with
 equipment more than \$85,000, is located on
 Eighth street between Market and Juliana,
 about one block from the Chancellor Hotel,
 Union Trust Building, and Comden Theatre.
 It is four stories high with splendid base-
 ment, giving five working floors with every
 facility for modern association work. The
 basement contains the gymnasium, bath
 rooms, swimming pool, locker rooms, bow-
 ling alleys and boiler room. The first floor
 is occupied with the business office, Lobby
 Reading Room, Board of Directors Room,
 Billiard Room, Grand Stairway and Gyn-
 nasium Gallery. On the second floor are the
 boys rooms, Parlors, Banquet Hall, Au-
 ditorium and Camera Room. The third floor
 contains the educational class rooms and the
 auditorium balcony. On the fourth floor are
 thirty sleeping rooms for members. Above
 the fourth floor is the space to be used as a
 roof garden.

The Greatest Exhibition of Pianos Invites You to the Lloyd-Baxter Music Co.'s Double Store

All the beauty and magnificence of the LLOYD-BAXTER MUSIC COMPANY Piano Store is in simply giving proper setting to the greatest retail piano business in the State of West Virginia.

This artistic and decorative perfection is all secondary to the real heart of the business success, that is the intelligent and helpful SERVICE and the suiting comparison of instruments which this organization supplies. There is no other place where SO MANY DIFFERENT MAKES OF PIANOS can be examined, side by side. Then, you can test the instrument in quiet secluded rooms, unembarrassed by the public eye. Each different make of piano is shown in the many varying models of Uprights and Grands. Every model of the BEHR BROS. is here, new and extraordinary collection of new Art Pianos, completing the greatest showing of these two of the world's greatest pianos that has ever been assembled under one roof in the city of Parkersburg, W. Va.

Then there is the "sweet-voiced" SOMMER, the STORY & CLARK, the SCHAEFFER, the CLOUGH & WARREN, the

SMITH & BARNES, the NEWMAN BROS., and the BAILEY.

Every instrument we sell may be bought on EASY TERMS OF PAYMENT, and if you have an old piano we take it and dispose of it at its fair value. In every way the LLOYD-BAXTER Music Co.'s service is HELPFUL AND COMPLETE to the purchaser of a piano. Dissatisfaction is unknown. A first-class tuner always on hand.

The new collection of VOSE Pianos is one of the most charming groups of the new exhibition, especially to those who wish to secure a beautiful and thoroughly artistic instrument at a moderate price.

Every instrument in the LLOYD-BAXTER MUSIC CO.'S collection is the lowest price for which it is sold anywhere. Many are sold for so much less than what other dealers ask for them that the manufacturers will not let us publish the prices, except by the tags on the pianos.

We also have the most complete line of VICTOR TALKING MACHINES, ZONOPHONES, EDISON PHONOGRAPHS and SMALL GOODS ever offered in Parkersburg.

“YOU’LL DO BETTER WITH US”

Furniture, Carpets, Mattings and Undertaking

We are offering the people of Parkersburg these lines of goods that are second to none in style, finish and workmanship. Our goods are all marked in plain figures, and are as cheap as any in the city considering quality. How much more satisfactory to buy of a firm who handle RELIABLE GOODS. We extend a cordial welcome to all to come and examine our FIVE FLOORS, covered with the latest designs and patterns

McGREGOR-AMISS FURNITURE CO.

No. 716 Market Street

Parkersburg, W. Va.

P. S.—Our Undertaking Department is under the personal supervision of our Mr. McGregor, who has had several years experience in conducting funerals.

Peoples Credit Clothing Company

C. M. Johnson, Manager.

Manufacturers and Retailers of

“High Art Clothing” for Men, Women, Boys and Girls.

Branch Stores in Principal Cities.

You don't need to go “shabby” because you are a little bit crowded for money. You owe it to yourself and family, to your own self-respect and to theirs, to dress yourself and those dependent upon you well and becomingly. This is easy to do under our Credit Clothing System. Just come to us and say “I want to open an account.” Here you will find the finest fabrics for your selection to dress yourself and your entire family. Only a small down payment, and a small weekly, semi-monthly or monthly payment as you receive your wages. No annoyance from collectors, no publicity—it is but your affair and ours. Come, select what you need and go away wearing the garments.

The choicest of goods to select from in all the latest makes. No old styles, all up-to-date, and all low in price.

Be neighborly—drop in and see us.

The largest and best equipped Men's and Boys'
Outfitting Store in West Virginia

Men's and Boys' Clothes, Hats, Shoes and Furnishings, of the most dependable sort. The assortments are at all times large and varied and absolutely correct in style. Our merchandise is all moderately priced. Have but one plain marked price and that is uniformly the lowest. Many of the best makers of fine, select goods, confine their product to us in this market—namely: The Stein-Bloch Co., Distinctive Clothes for Men; The Manhattan Shirts; Dent's and Meyer's Gloves; Youman's and Stetson's Hats; Regal Shoes; Mendel's Wardrobe Trunks; Horn's Neckwear, and many other renowned makers.
